Greenawalt Hospitality – Statement of Capabilities

Rapid Deployment Infrastructure for Disaster Relief & Emergency Response

Greenawalt Hospitality delivers integrated, rapid-deployment site infrastructure for emergency and disaster response. Our divisions, Event Restroom Trailers, Skylink, Event Ice, and B&B Beverage Management, mobilize within 24–48 hours to support basecamps, utility crews, shelters, and field operations across the United States.

Core Capabilities

Event Restroom Trailers | Mobile Sanitation & Hygiene
Climate-controlled restroom and shower trailers; ADA units; portable toilets; fresh/gray/black water systems; service trucks and on-site technicians. Tents, fence, and traffic equipment as supplemental.

Skylink | Satellite Communications & Connectivity
Mobile internet and voice networks; command vehicles (F550, Freightliner M106, Prevost H3-45); self-powered and field-supported systems.

Event Ice | Cold Storage & Packaged Ice Logistics
Refrigerated trailers and box trucks; medical cold chain and food storage; 24-hour delivery integration.

B&B Beverage Management | Food & Crew Support
Mobile kitchen and beverage services for personnel and displaced communities; fully compliant and scalable models.

Differentiators

- Mobilization within 24–48 hours
- 200+ deployable assets across six divisions
- Integrated logistics network linking sanitation, communications, and cold storage
- Proven support for basecamp and utility response operations
- Privately held, veteran-led organization
